8th May 2014 Troubleshooting SQL Server Reporting Service Error "This page might not function correctly because either your browser does not support scripts or active scripting is disabled" in SQL Server 2008 Reporting Services

Troubleshooting SQL Server Reporting Service Error in SQL Server 2008 Reporting Services

Error message:

"This page might not function correctly because either your browser does not support scripts or active scripting is disabled"

When entering Reporting Services this message appears at the top left. See image 1. Image 1.

Solution :

1.

Click **Start** -> right-click **Internet Explorer** -> Select Run as **Administrator** from the list that appears. See image 2. Image
